YEAR 12 - STUDENT INFORMATION

Students will be required to study **seven** subjects. **English** is compulsory, students will be placed in the appropriate English course by the HoD.

Students are to choose **six** further options to complete their course of study. However they can apply to be considered for an independent study option which can replace one subject. The criteria for this is:

- Excellent self management skills as evident from reports and teacher recommendations
- A good attendance record
- Evidence of meeting deadlines and being a proactive student.

Students who wish to consider some Pathways semester courses as part of their Year 12 programme, please click [here](#) for information regarding the semester subjects that are available for 2018. The Pathways programme provides students with the opportunity to achieve Level 2 credits while preparing for the world of work.

In selecting a programme of study Students need to consider:

- Your interests and abilities.
- Which subjects you enjoy the most.
- The skills you have and would like to develop.
- Your future career interests.
- Any subject requirements (prerequisites) at the next level.

As you plan your course and choose your subjects, check:-

- The prerequisites for entry into each subject.
- The level at which the subject stops.
- The number of credits generated by each subject.
- Whether the subject offers Achievement Standards or Unit Standards.
- Whether or not the subject is an approved subject (for University Entrance)
- Whether the subject provides Literacy credits in either reading/writing or both
- What subjects, grades, credits are needed for entry to the University/course you are interested in attending.
- The total subject course cost eg. Outdoor Education, Photography.
- That this subject equips you with the skills, knowledge and understanding you need to enter your chosen career path.
- That you have flexibility to change your course design if your career goals change.

YEAR 12 - STUDENT INFORMATION

Core Subject - English

Options

Art Design
Art Painting
Art Photography
Accounting
Biology
Business Studies
Carpentry
Chemistry
Classical Studies
Dance
Design and Visual Communication
Digital Technologies
Drama
Earth and Space Science
Economics

Engineering
ESOL - English for speakers of other languages
Food Technology
Geography
HarbourNet Online Learning
Health
History
Hospitality
IELTS
Independent Learning

Textile Technology
Youth Award Scheme

It is important that you are interested and enjoy the subjects you choose.

A question you should ask yourself is, *"Have I discussed my preferences with my parents and teachers - form teacher, subject teacher, Head of Department, careers and guidance?"*.

NCEA Level 2 Certificate Requirements

- 80 credits are required
- A minimum of 60 credits must be at NCEA Level 2 or higher, 20 credits can be used from Level 1.
- The 80 credits can be gained in one year or over two or more years.
- Credits may be gained from Achievement Standards or Unit Standard courses.

UE = University Entrance, **R** = Reading; **W** = Writing

LEVEL 12 - STUDENT INFORMATION

- Students may choose any course as long as they have met the prerequisite requirements for entry into Level 2 courses.
- Students who fail entry criteria and want to apply for an exemption, must apply in writing for special entry into a course. and if accepted, will be placed on an interim contract.
- Students who have not met the 10 literacy credits or 10 numeracy credits may be required to repeat the Level 1 courses. This is up to HoD discretion.

All students must confirm their courses on the stipulated days at the beginning of the year at course confirmation. Students will be advised of these dates. Failure to do so may result in students not getting their option choices if courses are full.

Key Points to note

- Please be aware that prerequisites for all courses can change without notice. Entry to courses is not guaranteed and student numbers may be restricted due to factors such as staffing availability for that course, timetabling and other reasons that make it impracticable to enrol all students into a course.
- Courses will only be provided if there are sufficient student enrolments. If necessary related courses will be amalgamated to form a viable class size.
- Orewa College will endeavour to accommodate student subject choices. It will develop a timetable structure that best meets the requirements of the greatest possible number of students.
- Multi-level study is an essential component of the College curriculum. Students may study at any of the different levels, however, any student wishing to study at a higher level must have the approval of the appropriate Head of Department.
- Students must meet all course prerequisites or have written Head of Department approval.
- Some subjects require students to pay material fees; these fees vary from subject to subject.
- Some subjects have field trips as part of their course and students must be prepared to participate and pay the appropriate trip costs. They must have a good attendance record before permission is granted.
- All subject fees (or ongoing payments) must be paid / organised with Accounts at the beginning of the school year. All subject fees must be paid in full before a student can progress to the next level in that subject.

Planning for University Entrance next year

- In order to gain University Entrance in Year 13, students need to go to requirements for University Entrance and ensure they note which subjects are eligible for University Entrance.
- Students should look ahead to the requirements of their chosen Tertiary Education Provider when selecting their Year 12 course.

YEAR 12 - STUDENT INFORMATION

Course Fees

Some subjects require students to pay material fees; these fees vary from subject to subject. Some subjects have field trips as part of their course and students must be prepared to participate and pay the appropriate trip costs. All subject material fees or arrangements for payment must be made at the beginning of the course. These subject fees must be paid in full if you want to progress to the next level in that subject.

Refunds

Once a student is enrolled in a course, the course fee is due. Any refund that may be due will need to be applied for.

PATHWAY MAP - ADDITIONAL COURSES

BUSINESS PATHWAYS MAP

L2 ACCOUNTING

L2

Accounting gives students the tools to make real life financial decisions in a constantly changing and uncertain world. During the course you will learn to make use of appropriate communication tools and skills to process, report, and interpret information for small or medium entities that operate accounting subsystems. You will also learn how to use Accounting Software (MYOB) when processing transactions.

INTERNAL	EXTERNAL	TOTAL	UE LITERACY READING	UE LITERACY WRITING

L2 BUSINESS STUDIES

L2

The study of business is about how individuals and groups of people organise, plan, and act to create and develop goods and services to satisfy customers. In this course you will learn about how internal and external factors affect large businesses in New Zealand. You will do research on some of NZ's best businesses and learn how they are run and why they are successful. You will have the opportunity of putting what you have learnt into practise by doing market research and carrying out a business activity of your own.

L2 ECONOMICS

L2

Economists are interested in the factors that influence the wellbeing of people and aim to find solutions to improve people's standard of living. In this course you will analyse inflation using economic concepts and models. You will learn about growth in the economy and the impact it has on society. The course also covers research about government policies and how to analyse data relating to two contemporary economic issues.

L2 ENGLISH VISUAL

L2

This course focuses on the analysis and development of visual and oral language skills. You will study and analyse a range of visual texts, improve your critical analysis skills and be able to make connections across these texts. You will also learn how to present these appropriately. This course is made up of internal standards and one external standard. It gives you credits towards Level 2 English and prepares you for Level 3 English Internal. If you achieve at excellence and merit level, you could be given permission to take the Level 3 English External.

INTERNAL	EXTERNAL	TOTAL	UE LITERACY READING	UE LITERACY WRITING

HUMANITIES PATHWAYS MAP

L2 CLASSICAL STUDIES

L2

Classical studies is a study of Ancient Greek and Roman civilizations and assessing the impact they have had on the modern world. You will study the epic tale by Homer, which follows the adventures of the Greek Hero Odysseus as he encounters monsters, cyclops, and vengeful gods on his way home from the Trojan War. We will also find out how the city of Pompeii was destroyed in 79AD and study the archaeology that has been left there. Finally we will investigating architecture, mosaics, and other art discovered in the buried city.

L2 HISTORY

L2

This course builds on the content and skills developed and examined in Level 1 History but can be successfully completed by students that have not taken History before. In the first internal you choose an aspect of WW2 and complete at least 12 pieces of evidence based research. Your second internal, looking at war crimes, can be linked to your first internal or topics such as the Armenian genocide or British actions at parihaka or in India to name a few. Your two external topics focus on the Vietnam War, with a heavy emphasis on New Zealand's involvement and response, and the atrocities committed in Rwanda, where a policy of ethnic cleansing from the ruling Hutu tribe was carried out against the Tutsi.

INTERNAL	EXTERNAL	TOTAL	UE LITERACY READING	UE LITERACY WRITING

L2 MATHEMATICS APPLIED

L2

This course is made up of Level 2 achievement and unit standards. It offers 16 mathematical credits at Level 2. Topics studied may include calculations for tourism, making informed expenditure decisions, Questionnaires, and Experiments. This course cannot be taken with Pathways Maths and does not lead to studying Mathematics at Level 3.

SCIENCE PATHWAYS MAP

L2 BIOLOGY

L2

Level 2 Biology is an interesting course of study which contains a mix of theory and practical work. You will learn about the ecology of the Rocky Shore habitat and complete a field trip to Orewa Beach as part of this internally assessed course component. You will also learn about the design and function of cells, which are the basis of life. You will also study genetic variation and how selection pressures drive change in gene pools. How cells produce proteins from gene blueprints and how genes are expressed is also studied.

L2 PHYSICS

L2

Physics will help you to understand your world better and could lead to you using this understanding for the benefit of people and the environment. In Level 2 Physics you will study ideas to do with movement (eg: projectiles, car crashes, moving in circles and navigation), radioactivity and atomic physics, electrical energy (circuits, making electricity, magnetic fields), and wave energy (lenses, mirrors, sound and sea waves). Physics is important in many areas including medicine, transport, industry, telecommunications, all sport, flying, the armed forces and in the home.
